***Allowable Subject Matter***

1. Claims 11-17 are allowed.
2. The following is an examiner's statement of reasons for allowance: independent claim 11 recites "calculating an offset value for calibrating a temperature of the object estimated by the temperature estimator". Although calibration of temperature inputs is common in the art, the combination of an estimator providing temperature outputs to calculate an offset value used to calibrate the temperature is not disclosed in the prior art. This feature in combination with the remaining method steps avoids the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
